Queries for Census Takers.
The Marshals are just now quite busy

taking the decennial census of the United States. The questions to be asked are very numerous, many of them relating to what are usually considered private family affairs. Here are a few of them :

take you to the Opera, and is he limited in
his ideas on the subject of kid gloves?

Mr. Alfred Smith informs us that he has just sold to a Philadelphia gentleman a lot of land on the lower part of Belle Vue Avenue, for four thousand dollars an acre. And that his sales of real estate since the first day of January last, amount now to about three hundred and fifty thousand dollars. September and October are usually the best months for sales of land.

Agricultural Exhibition.

THE NINTH ANNUAL EXHIBITION of the Acquidneck Agricultural Society, will take place on their grounds, and in their Fair House, in Middletown, on the eleventh, twelfth, and thirteenth of September. The Society have offered premiums for the usual exhibitions, and published their list of the same, and our readers will find them in the usual public places, or can, we presume, obtain them of the officers of that organization.

We regard this institution as worthy of the support of our citizens, and also, and more particularly of the people of Middletown, and Portsmouth. Its object is certainly good, and on the whole we believe that its effect has been good. Believing so, we do most earnestly hope, that it will be sustained by the good people of this island, by an united, vigorous effort.

Arrangements will be made we suppose, for conveyance to and from the grounds, where much that is valuable and curious may be seen, and we have no doubt will be seen by a large number.

NEED FIXING.—There is much complaint in regard to the hands on the clock of Trinity Church. Extending as they do nearly across the face, it is a matter of extreme difficulty at any distance from the clock to ascertain by the hour and minute. Were it otherwise the clock would be of great service, particularly on board vessels in the harbor, from which it can be seen, but at present to little purpose. The hands should either be clipped of the superfluous portion or it painted black. As this would be attended with very slight expense, we trust it will be done.

DANCE.—One of the darkest Streets in the city of Newport, of a dark night, is Church Street, between Thames and Spring. There is no light between these two streets to illumine the way for carriages or pedestrian, while the glare of the two lights at the head and foot of the street blind the eye and renders locomotion on the street inconvenient, not to say dangerous.

Cloakings.

The substitution of one letter for another oftentimes makes a radical difference in the construction of a sentence. Thus as the caption of an article on the importance of the investment of capital in that city, the New Bedford Mercury of the 5th has "Investments of Capital at Home." The difference is a few thousand miles only.

The Vermont State election on Tuesday resulted in a Republican majority of about 20,000. The returns show large Republican gains since the last election.

Daniel Colkins has been convicted in the United States Court at Auburn, N. Y., of passing a counterfeit half dime upon a fruit dealer, and sentenced to three years' imprisonment in the State prison.

The census taker in Upper Aroostook, Me., has found a family of twenty-seven children! In another he found sixteen, all living at home, and the mother about 40 years of age.

Dr. Hall recommends the use of pure cayenne pepper by persons who are drowsy in church while listening to long and uninteresting discourses, but he does not tell us in what form, or upon whom, pastor or hearer.

Court of Justices.

After opening by order of Turner J., all the cases were continued to Tuesday next, and court adjourned.

Republican Convention.
DOVER, N. H., Sept. 6.—A mass Convention of Republicans was held to-day at Wolfborough. It was very large and enthusiastic. Hon. Joel Eastman of Conway, was chosen President. The meeting was addressed by Hon. James B. McKenney, and Hon. Charles Van Wick of New York, Senator Wilson, Hon. Anson Burlingame and others. Col. Ebenzer Stevens of Meredith was nominated for Presidential Elector for this district.

Escape of Prisoners at Sing Sing.—A Desperate Affray with them and Two Persons Dangerously Wounded.
SING SING, Sept. 6.—Several convicts escaped from prison to-day, and were followed by the Keepers on board a sloop which was lying at the Prison dock, where they were recaptured after a desperate affray. One of the Keepers was dangerously wounded, and the captain of the sloop was fatally stabbed.

Rev. Dr. Bellows will preach at the Unitarian Church, to-morrow (Sunday) morning. Services begin at 10 1-2 o'clock.

A GOOD INDICATION FROM CULTIVATORS.—Those who have had occasion to pass the Times Buildings during a few days past will have noticed a new occupant in the commodious premises adjoining the publication office of this paper, and extending from No. 41 Park-row through to No. 151 Nassau st. The American Agriculturist, now closing up its nineteenth year, has deserted its ancient habitation among the agricultural warehouses on Water-street, and taken up its abode for the next ten years, at least, in the very centre of the great newspaper establishments of the City that have for some time past been concentrating around "Printing House square."

The eminent success of the American Agriculturist, which now counts its 50,000 subscribers, while due in part to the correct policy of the publisher, viz.—to get up the best possible paper without regard to expense, and then to make it widely known by liberal advertising—is an indication of the greatly-increased desire on the part of cultivators for information upon the best methods of tilling the soil. The present circulation of the Agriculturist, it may be remarked, is greater than that of the entire agricultural press only a few years ago. When this journal started there were but two or three agricultural papers in existence; the agricultural journals now number full forty.—N. Y. Times.

WONDERFUL INCREASE IN VALUE OF COAL LANDS.—The Philadelphia Ledger, speaking of a visit to the Lehigh Valley of Pennsylvania says:

"The Lehigh Coal and Navigation Company owns a navigation some eighty-five miles in length extending from Easton, on the Delaware River, to White Haven, besides some thirty thousand acres, more or less, of land, about six thousand acres of which are tested and approved coal lands. As an evidence of the little value set on the coal lands of this region, even within the last forty-three years, we may mention the premises of the old 'Lehigh Coal Mine Company' were, in 1817, leased for twenty years to Messrs. White, Hazard and others, at the small consideration of one acre of corn per year. The Lehigh Coal and Navigation Company several years ago acquired full title to the whole premises. This property, at least that portion of it considered good coal land, is now worth \$500 an acre. What a wonderful appreciation in value is this!"

The family of Hon. Joel W. White, of Norwich, Conn., had between \$4000 and \$5000 worth of jewelry and diamonds stolen from their room at Saratoga Springs, on Thursday of last week.

In the official report of the California Mint, the following occurs, which illustrates some of the many singular phases of social life on the Pacific:

"Half dimes, three cent pieces, and nickels are unknown to our commerce, and are almost unknown in our mint, although a few half dimes were once issued, to the great indignation of some people, who consider them a dangerous innovation, as having a tendency to reduce the price of labor and the profits of trade."

The Rev. A. Bewley, Methodist Superintendent and missionary in Texas, was hung by a mob a short time since on the charge of being an Abolitionist. The N. Y. Christian Advocate says he was a devoutly pious and inoffensive man.

A finger-nail is renewed in one hundred and thirty-two days in winter, but requires only one hundred and sixteen in warm weather. And as light hastens vegetation, so it is known that the hair grows faster in the day-time than in the night; and the beautiful principle holds good of our moral being. We all expand and grow into the likeness of our great Father in proportion as charity keeps up the warm summer time in our hearts while the sunlight of a heart that is pure and true dispels the clouds and darkness of wrong doing, and creates an atmosphere for the breath of angels.
